

Thomas Jefferson Powerpoint Bullets for 6/26/2010

Thomas Jefferson Powerpoint Bullets for 6/26/2010 Operational Period 6/24 and 6/25/2010 Sampling Period

- Three stations, TJ67 – TJ69, were sampled during the operational period.
- All stations were sampled for: TPH, VOAs, CTD fluorometry and dissolved oxygen.
- No samples were collected for bioassay using the Rototox test.
- No LISST data was provided.
- No notable increase in fluorescence or decrease in dissolved oxygen was shown.

Operational Period 6/25/2010 Sampling Period

- Two stations, TJ70 & TJ71, were sampled during the operational period.
- All stations were sampled for: TPH, VOAs, CTD fluorometry and dissolved oxygen.
- No samples were collected for bioassay using the Rototox test.
- No LISST data was provided.
- TJ71 showed fluorescence spikes and decreased dissolved oxygen at unassociated depths.
